Alila. NAPA VALLEY

Known for its bucolic hillside vineyards and laid-back California vibe, Napa is the ideal destination to slow down, catch your breath, and rediscover yourself.

While this region is renowned for its wines, Napa's temperate climate and nutrient-rich soil also produce some of nature's most healing botanicals. With soothing treatments that draw on these nourishing ingredients from the land, Spa Alila provides an elevated experience that delivers consciously crafted spa therapies artfully prepared just for you. Inspired by ancient healing traditions, aromatherapy, and artisanal creations, our treatments bestow balance and a sense of deep rest and renewal. Here, nature takes center stage.

# Facials

... a sensory experience to restore skin's natural radiance

Our soothing facials transport you to a state of bliss, providing nourishment with holistic ingredients that work in harmony with the skin's natural function. You will emerge renewed by the healing splendor of Northern California, hand-crafted local ingredients, and gua sha—which applies light pressure using a flat stone like those once coveted by the original inhabitants of Napa Valley. Gua sha relieves tension in the muscles of the neck and face, boosts blood circulation, and encourages lymphatic drainage, resulting in skin that looks smoother and more lifted.
